M/Y Dragon is an exceptional new yacht from Italian firm Columbus Yachts, a Palumbo Superyachts brand.

The exterior areas, which are all different in character, were furnished using only Tribù collections for the freestanding furniture, specified by the project's interior designer Francesco Guida. "The handwoven tricord of the back of the Mood armchairs, daybeds and club chairs is in perfect harmony with the natural atmosphere I had in mind. Ultimately the classic modernity of the interiors find the perfect continuity in the exterior areas creating the "timeless relaxing atmosphere" the owner requested." – Francesco Guida.

When Dragon is anchored, additional sun-trap decks open out at the bow, furnished with Mood daybeds, Vis à Vis loungers, poufs and Ile side tables.

Across the width of the teak bridge is the 200-metre-square 'beach club'. Here, Mood bar chairs are paired with Pure sofas, Mood low tables and poufs to create a flexible, relaxed club atmosphere.

TOSCA

MONICA ARMANI

P. 73, 74-75, 76

The Tosca outdoor sofa is simultaneously warm and inviting, stylish and intriguing. It was the first time TRIBU called upon a female designer to draw an outdoor furniture piece and that is evident in the design. Rounded forms, tapered legs and an elegant seating shell in powder-coated stainless steel, upholstered with extra-wide braiding. The material for the braiding is genuinely innovative: foam mousse is encased in a seamless sheath of knitted textile and polyolefine which makes the material weather-resistant, but also surprisingly soft to the touch. The seating comfort is especially pleasant, thanks to the comfortable outdoor cushions.

CTR

PIERGIORGIO CAZZANIGA

Italian designer Piergiorgio Cazzaniga does with the CTR collection what he is good at: making complex designs appear effortless. The frame of the sofa is made of profiles in powder-coated stainless steel that are bent in one continuous line. The corners are straight, yet the tubes keep a round form, which requires great mastery. The backrest is attached to the frame at only 2 points and appears to float unsuspected above the seat. The open weave refers to the ancient tradition of weaving and gives flexible support to the back. The seat is upholstered with a water-repellent cushion which can be easily removed.

The rounded design of the durable teak gives the sofa a warm and friendly tone. The weave in Tricord has a very soft touch, but can nevertheless defy all weather conditions. Tribù has developed a range of natural colours that fit in with any type of outdoor environment. The comfortable outdoor cushions can be left out in the rain, thanks to the ventilating, water-repellent filling. The back cushions are available in various styles to match every taste.

ELIO

YABU PUSHELBERG

P. 56-57

Elio, referring to the Greek sun god Helios and designed by Canadian design firm Yabu Pushelberg, is inspired by the motion of light as it reflects and refracts on landscapes and objects. Multiple soft shades of yarn are woven into one strand, which mimics the hues of natural light and makes each chair unique. The handwoven seat in weather-resistant Tricord rope, draws inward to create a warm, intimate cocoon effect. The 2-seater sofa is framed by natural teak, which supports the seating shell primarily through the back legs that cross the shell.

YABU PUSHELBERG

P. 53, 54

Elio, referring to the Greek sun god Helios and designed by Canadian design firm Yabu Pushelberg, is inspired by the motion of light as it reflects and refracts on landscapes and objects. Multiple soft shades of yarn are woven into one strand, which mimics the hues of natural light and makes each chair unique. The handwoven seat in weather-resistant Tricord rope, draws inward to create a warm, intimate cocoon effect. The high back, deep seat and generous cushion make it perfect for daydreaming. The chair is framed by natural teak, which supports the seating shell primarily through the back legs that cross the shell.

NOMAD

MONICA ARMANI

P. 71, 75, 86-87, 88-89

The deep cushion of the Nomad lounge chair is stitched to cocoon the body, folding over the armrests and moulding into the broad curve of the backrest. Designer Monica Armani used what she calls 'noble teak wood' for its warmth, smoothness and strength. Slender legs and contoured armrests give the chair its elegant profile and the smartly stitched cushion is as luxurious as it is comfortable. Nomad, like its name, works well wherever it is placed, in combination with a lounge set-up or as a stand-alone piece.

Elegantly tapered legs and a crisp, clean silhouette define the Branch lounge. The slender frame is made of high pressure injected aluminium, a specialised technique that makes the lounge incredibly strong yet surprisingly light. Powdercoating the frame with a double ultra-durable lacquer adds a high performance finish. The Branch lounge can be stacked up to 12 pieces high, making it ideal for the hospitality sector.

VIS À VIS LOUNGER

PIERGIORGIO CAZZANIGA

P. 68-69

Deep cushions in bold shapes with a discreet teak base frame make our Vis à Vis meridienne a refined addition to your terrace. The meridienne uses an essential design element from our Vis à Vis sofa – back cushions supported by hidden stainless-steel brackets – so that it looks good from every angle. The deep outdoor cushions contain a clever ventilating, water-repellent filling to withstand a sudden downpour. The filling is further protected by an inside cover and seam stitching that swells when wet to prevent water from entering.
